| Land Survey Monuments situated in Section 32 | , 111119 |
| | |
| Previously recorded in <u>1) (No Record) 2) (No Record)</u> in County Recorder's Office. (book, page, document number, etc.) | |
| (Show reason for preparing this certificate, the evidence and detailed procedures used in establishing the corner positions and monumentation found or placed.) Monument Description and Remarks: 1) West-Northwest Eighth Corner Section 32 We found the W1/4 and NW Corner of Section 32 and computed a location at the midpoint and online between them for the corner location. We searched a 20' radius area with the magnetic locator, but found nothing. We set a 1/2"ø iron rod with aluminum cap | |
| PLS No. 22572 at the computed location. | |
| 2) Northwest Sixteenth Corner Section 32 We computed a location at the intersection of 1/4-1/4 lines in the NW1/4 of Section 32. We searched a 20' radius area with the magnetic locator and found only a T-Post in the ground at the approximate intersection of the grass waterways. This T-Post was the basis of what was determined to be the perpetuation of long term occupation lines and the reason for the survey of Parcel 2022-5 and 2022-6 in document 2022-0168. We set a 1/2"ø iron rod with aluminum cap PLS No. 22572 ±15" deep at the computed location as we could not find documentation that this corner monument had ever been set or established by a surveyor in the field. | |
| PLAN — VIEW (Show a minimum of three reference ties to durable physical objects, relevant monuments and physical conditions that will enable recovery of the corner.) | |
| (Show a minimum of three reference ties to durable physical objects, relevant i | monuments and pnysical conditions that will enable recovery of the corner.) |
